WORKSHOP 1

**THE SPEAKING CIRCLE ©
WORKSHOP**

Become a more effective communicator, leader, executive or public speaker. Be a more present and powerful human being. When you show up from your Presence and the present moment, oftentimes, something magical happens: a circle of speaking, being heard, and whole-hearted listening is created. This supports all to shift or expand, into Unlimited Self, becoming more empowered, creative, intuitive and inspired.

WORKSHOP 2

**LIVING FULLY IN THE MOMENT:
THE PRACTICE OF TRANSFORMING**

How can we live fully in the present moment and shift from talking about it to living it? By the end of this workshop you will have experienced a full spectrum of mind, body, and spirit tools that support your life and work. You will live from a different state of consciousness—one that is both Life-Changing and Transformative.

WORKSHOP 3

**SPEAK YOUR PEACE:
CREATING POWERFUL
PROFESSIONAL PRESENTATIONS**

As professionals, we sometimes don't present our content in a way that makes the material come alive or convey the essence and power of what we know. This workshop draws heavily from The Speaking Circles © Method for going beyond any "performance anxiety" and for learning public speaking skills, from the inside-out.

Workshops are ongoing in Manhattan. Call Lynda today for current dates.
